**Subject:** RE: FOIA Request EPA-R8-2014-000320

Nathan – All the EPA technical folks that are working on the Animas Site have confirmed that all the water quality data or sampling data obtained by EPA or made available to EPA from any other party over the last 12 months is in SCRIBE. Since EPA has made access to SCRIBE available to Sunnyside Gold Corporation and if you have confirmed that you and your folks can access the data, I think EPA has fully responded to your FOIA request. Let me know if you agree.

I am only in the office until 11:30 today, then out until next Monday.

Thanks

Richard,

Confirmed on behalf of Sunnyside Gold Corporation.

Thanks for the information. I will be in touch.

Regards,

Nathan

**Subject:** FOIA Request EPA-R8-2014-000320

Nathan – Just wanted to confirm what we agreed to in our conversation on Tuesday regarding this FOIA request. The present due date in EPA's system is November 19<sup>th</sup> and we agreed to extend that due date for 2 weeks to December 3<sup>rd</sup>.

Also, Steve Way confirmed that any water quality data that his contractor produced in the last 12 months has been placed in the SCRIBE database. So the technical folks here at EPA all tell me that the data you requested in this FOIA request should be available in SCRIBE.

If you could confirm the agreement on the due date and copy Judy Roos with that confirmation that would be appreciated.

Once you have a chance to confer with the appropriate folks, let us know if you want to withdraw this FOIA or if you would like us to go ahead and respond.

Thanks
